

PREETY KUMARI

Node.js Backend Developer

 preetysingh46231@gmail.com  7979911769  Ranchi  linkedin.com/in/profile  Portfolio  Github

PROFILE

Backend Developer with 1 year of experience building scalable and secure REST APIs using Node.js, TypeScript, NestJS, and Prisma. Skilled in PostgreSQL and MySQL database optimization, authentication, validation, AWS S3 integrations, Zoho APIs, and third-party service integrations. A strong problem-solver with hands-on experience improving system performance, enhancing data flow, and designing clean, maintainable backend architecture.

WORK EXPERIENCE

Node.js Backend Developer

05/2025 – 11/2025 | Gurugram, Haryana

Wingzman Battery

- Developed and maintained scalable backend APIs for Inventory, Sales, Finance, and Payments modules using NestJS and PostgreSQL.
- Designed and optimized PostgreSQL database schemas using Prisma ORM for efficient data management.
- Integrated third-party services including Zoho Books, Zoho Inventory, and AWS S3 for seamless data syncing and file uploads.
- Engineered authentication, validation, error handling, and logging systems to ensure reliability and security.
- Collaborated with frontend teams to enable smooth API integration and consistent data flow.

Node.js Backend Developer Intern

10/2024 – 01/2025 | Gurugram, Haryana

LastPulse

- Developed and maintained backend APIs for manufacturing, procurement, and warehousing operations using Node.js, Express, and MySQL.
- Applied JWT authentication and role-based access control (RBAC) for secure user management.
- Integrated AWS S3 for secure file uploads and Firebase for authentication.

PROJECTS

1. Law Connect Hub

A legal appointment booking platform that connects users with experienced attorneys for personalized legal assistance.

- Github**
- Tech Stack:** JavaScript, HTML5, CSS3, Node.js, Express.js, MongoDB
- Key Features:** User JWT authentication | Appointment booking system | Secure data handling

Responsibilities & Contributions:

- Designed and delivered RESTful APIs for communication between frontend and database.
- Built and structured UI components to ensure a smooth user experience.
- Collaborated with the backend team to integrate authentication, appointment booking, and legal consultation features.

2. Real-Time-Location-Tracker

A real-time location tracking application that allows users to share their live location and view other connected users on an interactive map.

- Github**
- Tech Stack:** Node.js | Express.js | Socket.IO  | Leaflet.js | OpenStreetMap
- Key Features:** Live location sharing | Interactive map | Multi-user tracking

Responsibilities:

- Implemented real-time location updates using Socket.IO.
- Integrated Leaflet.js & OpenStreetMap for interactive mapping.
- Developed server-side logic with Node.js & Express.js.

EDUCATION

Full Stack Web Development

Masai School

11/2022 – 03/2024 | Bengaluru, India

Bachelor of Commerce

Ranchi University

08/2015 – 05/2018 | Ranchi, India
